

Venkata Kishore Reddy Guttikonda

Software Developer (Frontend)

Current Location: Mumbai

Phone no: +91 9966434533

Email: guttikondakishorereddy@gmail.com

Frontend Developer with over 2 years of experience in developing user-friendly and responsive web applications. Proficient in React and Angular frameworks, with a strong understanding of JavaScript, HTML, and CSS. Seeking a challenging position to contribute my skills and expertise to further enhance user experiences.

SKILLS

- Programming Languages: **JavaScript, HTML5, CSS3**
- Frameworks: **Angular**
- Libraries: **React, Redux, Bootstrap.**
- Version Control Systems: **Git**
- UI/UX Design: **Wireframing, Figma, Responsive Design**
- Web Technologies: **RESTful APIs, JSON, AJAX**
- Testing: **Unit Testing, Integration Testing**
- Development Tools: **npm, Visual Studio Code**

EXPERIENCE

Associate Software Engineer

InnoVaccor, Noida

Sep 2021 - Nov 2022

- Developed products for the US healthcare industry, focusing on value-based care.
- Contributed to the "**Patient-Outreach**" **product**, facilitating patient engagement through 4 different channels: **SMS, Email, Voice**, and **Letter**, resulting in improved communication and enhanced patient engagement.
- Achieved approximately **25%** cost savings by implementing phone number and email validation, reducing campaign expenses.
- Revamped the dashboard to improve **patient filtering** based on engagement levels.
- Migrated essential components to the **Innovaccor Masala Design System (MDS)**, built on **Material UI**.
- Optimized API calls using the **debouncing** technique with a 400ms delay, resulting in improved **product performance**.
- Enhanced campaign status by incorporating **percentages** and **progress bars**.
- Implemented sender details logs and added **dropdowns** and **sorting** options for filtering logs based on 4 different channels.

Software Developer

TECHstile, Mumbai

Nov 2022 - Present

- Contributing to the development of the "**Textile (ERP)**" **product**, a comprehensive cloud service for textile organizations.
- Utilized **Reactive Forms** to create informative forms for transitions.
- Designed and developed a **mobile view** for 20 screens, enabling users to check and approve order statuses.
- Implemented complex **challans** and **invoices** using Bootstrap 5 to ensure responsiveness.
- Built complex forms with **30-40 fields** of different types and implemented real-time calculations for **taxable amounts**, **discount amounts**, and **gross amounts**.
- Utilized the **Tabulator** JavaScript library for the report table, implementing features such as **column hide**, **filtering**, **sorting**, export to **Excel**, and **printing**, which greatly enhanced the functionality and user experience.

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering

GIET, Rajahmundry

May 2021

CGPA - 7.26

PROJECTS

InRecord

- Web application for doctors to maintain **patient health records**.
- Utilized **Docker** for version control and release management.
- Automated test suites using **Selenium with Python**, covering almost **90%** of lines.
