PROJECTS

TECHstile (ERP)

Manage day-to-day business activities such as accounting, and supply chain operations.Restricting users according to the **permissions** assigned out of 6-8.

- Using **Reactive Forms** to create informative forms for the transitions.
- Developed and designed a **mobile view** for **20** screens that will allow the user to check or approve the order status.
- Making complex challans and invoices using **Bootstrap 5** for responsiveness**.**

Patient-Outreach ‖ Inconnect

Reach out to the Patients through Campaigns and Programs through **4** different channels: **SMS**, **Email**, **Voice**, and **Letter**. Helping **80%** of the Patients by sending a reminder about the checkup.

- Accomplished **Phone number validation** and **Email Id validation and the fix** will save almost **1/4** the cost of a Campaign.
- Dashboard revamps to **filter** out patients based on engagement.
- Implemented a flow before activation to avoid sending programs before **mandatory checks**.
- Allowing the user to **prioritize** certain **programs.**
- **Migrated 4** micro-services essential components(like Buttons, Spinners, Text, etc.) to **MDS(Innovaccer Masala Design System)** which is built on **Material UI.**

- Contributed to the company's Design System **library**.
- Optimized **API** calls using debouncing with a **400 ms** delay in all paginations which improves the performance of the product.
- Enhanced the **6** different statuses of Campaigns with percentages and a **Progress bar**.
- Provided **Logs** for Sender details and added **Dropdown** and **sorting** to filter out logs based on 4 different Channels.
- Implemented autoDismiss **Toast** which will dismiss after **8** secs.

InRecord

Developed a web application where doctors can maintain their **Patient Health Records.**

- Creating a Docker file and Pushing the Image to **Docker Hub** In which we can release versions for every new release like **v1.0,** and **v1.1**.
- Automated all test suites with **Selenium** with Python which covers almost **90%** of lines**.**
